Vision 2015.

How Leader might change your area.

Baia Mare, 05/03/2010

Answer the following questions

- Which ones are the four most important fields of action for your future work in your LAG?
- Which one out of these four is the most important one?
- Describe how these four fields of action look like in 2015 in your region, after positive changes have taken place.
- Think of one key project per field of action that has been done and contributed to this positive change.

Your way of working

- Please form five groups, one for each possible LAG in Maramureş.
- Each group sits together in a circle of chairs or around a table, but in any case all in one row in the circle or around the table, and all facing each other.
- Two groups we ask to switch to the smaller conference room, three groups may stay in here.
- Each group in the end fills out a grid similar to the one on the next slide.
- This way of working will NOT be discussed by us.

The grid

field of action	situation in 2015 (positive change)	key project
<i>most important</i>		
<i>other one</i>		
<i>other one</i>		
<i>other one</i>		

Vă mulțumesc!

002 TAIEX Baia Mare, 4.-5.3.2010
